OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you full history of my case, to be used at your discretion.

About five years ago my right car began to sing, and this kept on getting worse, until I lost y hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a numerof physicians, among others, the most eminent ear specialist of this city, who told me that ity an operation could help me, and even that only temporarily, that the head noises would encease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treation. After I had used it only a few days according to your directions, the noises ceased, and clay, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you satisfy and beg to temain.

Very truly yours.

Washington, D. C., Jan. 9.- It s evident that Ben Daniels, who was yesterday appointed United States marshal for Arizona, will find some difficulty in getting confirmed by the senate.

Before he retired to bed last night, Senator Hoar, chairman of the senate judiciary committee, to whom Daniels' nomination was referred, had received several telegrams protesting against his confirmation. Today telegrams of protest have been pouring in since early morning,

Many of the protests came from republicans who object to Daniels because it is alledged he is a democrat, but the majority are from clergymen who oppose the confirmation of Daniels because he is a professional gambler.
